Technical Skills

Python

Data Wrangling

Data Visualisation and
Dashboarding

Machine learning

Statistics

R Programming

MS Excel

R & Python libraries for
Data Science

HTML & CSS

Efficient Student pursuing **Engineering** degree with experience collaborating with teammates to create projects that succeed with high accuracy. Well-versed in **Machine Learning** with strong understanding of **Data Science** and **Statistics**. Have work experience with various IDEs like **Jupyter**, **Watson Studio** and **Visual Studio Code**.

Successful in quickly building skills, self-teaching and acquiring new knowledge. Quick-learner with positive attitude ready to make lasting yet **immediate impact**.

Education

2019-07 -

B.Tech: Mechatronics Engineering

Current

Manipal Institute of Technology - Manipal

- Coursework in Mechanical, Computer Science and Electronics
- Currently studying with 8.71 CGPA

2017-03 -

Class 12: CBSE

2019-03

Apeejay Public School - Noida

- Consistent Scholar Badge Holder
- Cleared class 12 with 94% CBSE

Work Experience

2021-07 -

Data Analysis Intern

2021-10

Genpact India

- Utilise various professional statistical techniques and maintained large databases to collect and analyse data from partners and customers.
- Languages used include R and Python
- Work with large teams to deliver results

My Projects

- Built **regression** models to predict the resale prices of used cars from a data set with **20,000 entries**.
- **2 Capstone Projects** and Numerous more smaller tasks in the Machine learning and data analysis domain on **Kaggle** and **Github** .
Link: [Kaggle Profile](#)
Link: [Github Profile](#)
- Collaborated with team of 4 in the development of an **Embedded System** based solution for alerts and attendance management.
